FOR IMMEDIATE RELEASE
9 AM EDT, September 8, 1998

U.S. SCOUTING SERVICE PROJECT HAS NEW LOOK!

THE U.S. SCOUTING SERVICE PROJECT, INC. (USSSP, INC.) has just completed a redesign of their high volume Scouting Internet site. Thanks to the efforts and talents of team member Mike Bowman, the Website now features easier navigation, faster load times, and updated information about the Boy Scouts of America.

The USSSP website is one of the leading Scouting Internet sites on the World Wide Web that features hundreds of resources and links to the Scouting community. It currently maintains the largest collection of Scouting Graphics and Text files anywhere in the world with over 13,000 files available for download.

All resources available on-line by the USSSP, Inc. are provided at no charge.
